## Premium Security

From a Name You Trust  
for Less Than You Think

Premium Security from Bri-Tech is exactly what you would expect: the latest technology, valuable features and quality that reflects our high standards. When you consider that you are protecting the most important people and places in your life, why compromise? This new system provides security, life safety and central station monitoring with a full array of security sensors and detectors.

With Bri-Tech *you own the system* so there is never an extra leasing expense or long term contract.

- Proven Technology at very reasonable cost
- Wired and wireless technology installed in a day or two
- Local family owned company

For 20 years Bri-Tech has been providing security and fire alarms for business, schools, houses of worship and fine homes throughout Long Island. Let us protect yours.

## PS Series

### Features

- 16 Zone Wireless
- Remote Dial-in Control
- Central Station Monitored

### Options

- Touch screen style keypad available in black or white
- Sensors and detectors for every purpose
- Interior and Exterior Sounders
- Cellular Connectivity option, no landline required

***“Protect what matters most.”***

## Controls and Accessories

### Touch Screen Style Keypad

Available in black or white, this keypad is fully backlit and has an easy to read screen. Graphic buttons make it easy to use, and the seal-protected screen can be easily cleaned so it will always look new.

### Traditional Keypad

For those more comfortable with pressing buttons, this traditional keypad is the way to go. A door covers the buttons so the device appears less obtrusive.

### Key Fob

Arm your house the same as you arm your car – with one button.

### Panic Fob

The Panic Fob eliminates false alarms as it requires both buttons to be depressed simultaneously.

### Internal Sounder

Alert everyone in your household when there is an alarm for life safety.

### External Sounder

The flashing light and sounder make it easy for emergency personal to find your home. Also alerts you that there has been an alarm and to proceed with caution.

### External Sounder with Illuminated House Number

A larger version of sounder above with illuminated house number (available 2011)
