

Beautiful shades
of luxury

A photograph of a modern bedroom. The room features large windows with light-colored roller shades and heavy brown curtains. A bed with a white quilted coverlet is in the foreground, with a large green pillow. A brown armchair with a green pillow sits near the window. The ceiling has a green decorative band. The text "Beautiful performance" is overlaid in the center.

Beautiful
performance

Crestron motorized shades and drapery systems transform any room into a more spectacular space. Our stunning designer fabrics, elegant hardware and world-class technology ensure you find the perfect shading solution for every space in your home. Control your shades with ease from keypads, touch screens and your favorite mobile devices. Better yet, create one-touch lifestyle scenes integrating your lights, shades, thermostats and more.

Style that draws attention

The Crestron shade fabric collections are second to none, providing hundreds of designer inspired colors and patterns to select from. You're sure to find the perfect complement to any design, from elegant and traditional to modern and sophisticated, Crestron provides you unparalleled beauty and style.

Designer Collection

Heritage Collection

Lavish handwoven shades

The Hartmann&Forbes® Collection for Crestron features handwoven textiles for roller shades created for those who appreciate the benefit of handcrafted products created by artisans with a meticulous eye for detail. The entire collection is made from natural fibers sustainably grown and artfully hand loomed. Crafted with pride and infused with a rich sense of tradition, each custom weave brings a natural warmth, elegance and refinement to any room.

The most advanced
shade motors

Thanks to our exclusive Quiet Motor Technology™, Crestron Roller Shades provide precision control and ultra-quiet performance backed by a lifetime warranty. Reduce glare without disrupting a little one's nap, or wake up naturally as your shades rise in silence to welcome the morning sun.

QMT® motors are powerful yet compact, enabling elegant, unobtrusive installation options that complement your style. Best of all, Crestron shades are designed to work flawlessly with all of the technology in your home.

Perfect control

Crestron gives you the power to personalize your home automation experience with scenes. Instead of controlling your shades and other technology individually, each scene is a set of coordinated system actions that happen at the touch of a button, when you enter a room, or at a set time. With Crestron, you can create lighting and shading scenes for day and night that fit your lifestyle to perfection.

Good morning

Enjoy your morning coffee in total comfort. With the touch of a button the shades rise to let in the perfect amount of sun, and the lights come on just a hint to help you read. Never mind the weather outside, Crestron makes sure the temperature inside is right where you like it.

Dinner time

Set the scene for a romantic meal or a festive family get-together. With a just a tap of your smart phone or Apple Watch® the shades silently adjust as the lights dim to create the perfect ambiance. In the background, your favorite streaming music channel begins to play.

Roller shades

Crestron Roller Shades are ideal for a flat clean look or in conjunction with more decorative draperies. Roller shades are available in widths up to 15 feet to meet the requirements of any project. Combine transparent fabric for glare control and blackout fabric for privacy in the same window by choosing our convenient dual-roll configurations.

Our beautiful roller shades are also available in manual-control versions, providing you with additional flexibility to maximize your budget. Manual roller shades can be upgraded in minutes to motorized control at any time – a convenient feature offered only by Crestron.

Skylight shades

Crestron Skylight Shading Systems decrease glare and provide year-round energy efficiency, reducing heat gain in the summer and heat loss in the winter. The innovative tensioning system adjusts automatically to keep shades taut across longer spans and operating smoothly in windows and skylights that are on an incline.

Fabric options & characteristics

Crestron fabric options help you effectively manage the sun's heat and glare to create interior spaces that are exceptionally comfortable as well as beautiful. What's more, selecting the optimum shade type for each room can lead to dramatic energy savings.

Transparent fabrics

Transmits light so that objects or images are seen through the weave.

Benefits

- UV protection
- Natural light and glare control
- Reduced solar heat gain

Translucent fabrics

Transmits diffused light, eliminating the perception of distinct images.

Benefits

- UV protection
- Natural light and glare control
- Reduced solar heat gain
- Adds privacy

Blackout fabrics

Provides advanced light blockage and privacy.

Benefits

- Ultimate light and glare control
- Dramatic reduction in solar heat gain

Our collections utilize fabrics that are as durable as they are beautiful. All fabrics have been tested and certified by independent laboratories.

Certified environmentally safe

PVC-free

Recyclable/eco-friendly

Lead-free

Mold and bacteria resistant

Fire retardant

The perfect fit for your style

Crestron Shading Solutions offer a range of discreet installation options to blend seamlessly into your interior design.

Hidden Pockets

For a clean, modern look, hide the rollers in a recessed pocket in the ceiling. This is the ultimate option for shades that literally disappear when not in use, leaving a pristine view from your windows. If this sounds like your style, it is important to plan ahead with your builder, as pockets need to be created during construction.

Pocket cutaway view

Fascia

Crestron shades are available with metal fascia in a range of colors, including White, Black, Brown, Smooth Almond and Gray. Or feel free to have your builder create beautiful custom fascia to conceal shade rollers.

Square

Curved

Drapery tracks

Crestron Drapery Track Systems control pinch pleat, Ripplefold, and Accordia-fold® styles on straight tracks using Crestron drapery motors. Custom bends and curved drapery tracks are also available for spaces with special design requirements.

Hardware &
finishes

We offer elegant hardware options for every installation. Choose from a variety of colors and designer finishes for the perfect style in any room.

Finish choices for the Architectural Hardware Series

Finish choices for the Décor Hardware Series

Crestron keypads

Crestron Cameo®, Designer and Decorator Series keypads, dimmers and switches complement any décor and are available in a range of control and design options.
